LONDON. AUGUST 3.

THE Miniſter is determined upon three points, which the public may be aſſured will be carried into execution before he quits the helm. The firſt, to bring the Americans to a ſenſe of their duty;—the ſecond, to have Great-Britain indemnified in the ampleſt manner, by all foreign powers on whom ſhe has claims of any ſort;—and thirdly, to put the marine, in all its departments, upon a footing on which it has never yet been known.—*A Puff.*

Yeſterday a full board of treaſury was held, at the breaking up of which an expreſs was ſent to Lord North, at North-end, who, to the ſurpriſe of many, did not appear yeſterday at St. James's.

BRISTOL, *Aug.* 4. Laſt Saturday died, at his lodgings at Clifton, ROBERT DINWIDDIE, Eſq; aged upwards of LXXX. many years Lieutenant-Governor of Virginia; which office he ſome time ſince quitted, on account of his years.

LONDON, AUGUST 6.

Thomas Bradſhaw, Eſq; one of the Joint-Secretaries to the Treaſury, will certainly reſign in a few days; and —— Robinſon, private Secretary to Lord North, be appointed in his room. Mr. Robinſon already tranſacts the principal part of the Treaſury buſineſs.

AUGUST 8.

Lord North has received a certain aſſurance of the certain poſſeſſion of all his honours and emoluments—till the tenth of November next at leaſt.

AUGUST 11.

This day advice was received by the New-York packet, of the reſolution of the merchants of that city to import.

Letters from Germany, bring a confirmation of the great application made by the houſe of Auſtria, to put its military not only in a reſpectable, but even a formidable ſituation. It is ſaid, that it conſiſts in the whole of above 200,000 troops, thoroughly well trained, diſciplined, and provided.

The terms, it is ſaid, Lord Mansfield is to retire on, are theſe: His Lordſhip is to have a penſion of 3000l. per annum, with a proviſo of his attendance at council, and private levees.

We learn, from very good authority, that a great perſon has lately expreſſed the moſt earneſt deſire of having the unhappy differences between Great-Britain and America, terminated in a manner equally ſatisfactory to both parties; and with all the expedition the nature of the buſineſs will allow.

The guards at Plymouth are doubled, and other precautions taken, on account of ſome malicious attempts lately made to fire that place.

It is poſitively aſſerted, that the King of Pruſſia has determined to take part with the Ruſſians, in caſe the houſe of Auſtria ſhould in any manner oppoſe the operations of the court of Peterſburgh, in the preſent war with the Turks.

AUGUST 14.

The affairs of America grow every day more and more embarraſſing. The union among the colonies is very alarming. Force attempted againſt one colony, will be reſented as force aimed againſt the whole; and as the people are growing rich, they in proportion grow ſturdy.

AUGUST 16.

Let thoſe who talk of coercive meaſures being taken with the Americans, remember that they already conſiſt of more than three millions of people, and, according to the laws of population, will, in rather leſs than 20 years, equal the number of his Majeſty's Britiſh ſubjects.

Letters received on Wedneſday night from Portſmouth aſſure us, that ſome of the perſons who were apprehended there for the late fire, have made an important diſcovery relating to that myſterious tranſaction.

Very extenſive commiſſions are now executing in the city for goods which bear no duty in America, to be ſhipt for New-York.

A private letter from Amſterdam mentions, that 100 tons of Tea were actually ſhipped on board a Dutch veſſel, the latter end of laſt month, for St. Euſtatia, in order to be diſpoſed of to the North-American veſſels, which are continually paſſing that way.

The following liſt of a new adminiſtration is handed about at the Weſt end of the town:

Lord Camden, *Lord Chancellor.*

Marquis of Rockingham, *Firſt Lord of the Treaſury.*

Earl of Chatham, *Secretary of State for the Southern department, with a full ſcope of government.*

Earl of Shelburne, *Secretary of State for the Northern department.*

Mr. Dowdeſwell, to be *Firſt Lord of Trade and Plantations.*

And, Earl of Hillſborough, to continue as *Secretary of State for North-America.*

Other accounts ſay, the dreams of an approaching coalition of parties are now entirely vaniſhed.

Sir Edward Hawke came to town this day from his ſeat at Sunbury, to be preſent at a board of admiralty, which is to be held to-morrow.

AUGUST 21.

No leſs than ſeventeen heads of bills for patriotic purpoſes are now ſaid to be under the conſideration of a great lawyer, and his aſſociates in the Minority, in order to be introduced into parliament the enſuing ſeſſions.

It is ſaid that at the meeting of parliament, the conſideration of the American affairs will come on, previous to every other buſineſs.

Mr. Pitt, of the Middle Temple, a relation to the Earl of Chatham, is nominated for one of the American law departments.

The French Gazette, ſo long ago as the 7th inſtant, had an account, that the inhabitants of New-York, had come to the reſolution of importing all ſorts of merchandize from England, except thoſe on which a duty is charged for the purpoſe of raiſing a revenue in America; ſo that the reſolution that has lately been circulated by order of government, ſeems to be little more than an ineffectual attempt of ſome intereſted perſons in that city to break through the general agreement of the provinces. It is, however, ſuſpected, that many private entries will be made, and that it will not be in the power of the patriots of that country to maintain their engagements for any length of time.

whatever effect those engagements might have had, if faithfully adhered to, upon the councils of the mother-country.

AUGUST 25.

Some people are of opinion, that the consent of the majority of the trading inhabitants of New-York to the free importation of British manufactures, was obtained by certain court influence, with a view to give colour to the rigorous measures that are to be pursued against the Bostonians, who are now, it is said, by their obstinacy, become the object of ministerial revenge.

Several measures of importance, we hear, are resolved on, relative to a neighbouring kingdom; and want only the concurrence of a great personage to be put into execution.

We learn, that the plan of a new code of laws for the American colonies, will be offered to the consideration of parliament, at the opening of the next session.

It is reported among the intelligent in the political world, that in the councils held of late between a great personage and his ministers, American matters have been most frequently the subject of deliberation.

AUGUST 27.

It is certain that a late governor and fomenter of differences in America will be honoured with a ribband.

The New-York merchants are now shipping off large quantities of all sorts of British manufactures, in consequence of orders received by the last packet.

AUGUST 28.

It is incredible how much trade has decayed in the Western and Northern counties of this kingdom since the American agreements of non-importation.—Thousands of poor people have severely felt this, and wait impatiently for the meeting of parliament.

Two noble Lords, we hear, have taken up the cause of the Americans, and from the present face of affairs seem very confident of success.

A regiment of troops are now completing and filling up in the province of Ulster, in Ireland, in order to be sent off for America, with all possible expedition.

We are assured that a bill is already drawn up, and will be presented the next sessions, for effectually preventing the emigration of mechanics, &c. from the British dominions.

AUGUST 30.

We are informed, that Lord Chatham has been sent for, and will certainly have a conference with his Majesty before the end of the week.

A council is to be held before the end of the week, on the last advices from the colonies.

From the character and abilities of certain personages who have declared themselves in favour of the Americans, there seems to be no doubt of a signal victory in the ensuing political campaign.

AUGUST 31.

A council is summoned to meet at the Cockpit this day.

Some foreign intelligence lately received is to be taken into consideration at the above council.

Tomorrow the New Edward, Capt. Williams, who has completed her lading, is expected to sail for New-York: This is the second ship in the port of London that has been laden with goods for New-York, since the merchants of that province have departed from their resolutions.

BOSTON, OCTOBER 1.

LAST Evening we were informed by a melancholy messenger from Newbury-Port, that yesterday morning, about six o'clock, at that place, the Reverend and renowned GEORGE WHITEFIELD, chaplain to the Right Hon. the Countess of Huntingdon, &c. &c. was, by a sudden mandate, summoned to the bosom of his Saviour! He had been preaching in divers parts of this province since his arrival from the Southward, with his usual diligence and energy; was now from a tour to the province of New-Hampshire on his return to this town, but being seized with a violent fit of the Asthma, was, in a very short space, translated from the labours of this life, to the entertainment of a better.——Of this truly pious and very extraordinary personage, little can be said but what every friend to vital Christianity, who has sat under his ministrations, will readily attest: In his public performances throughout Europe, and on several different, in most parts of British America, he has, for a long course of years, astonished the world as a prodigy of eloquence and devotion! With what frequency and chearfulness did he ascend the desk, the language of his actions being ever, "Wist ye not that I must be about my master's business?" With what divine pathos did he not plead with, and persuade, by the most engaging incitements, the impenitent sinner to the practice of piety and virtue! Filled with the spirit of grace, he spoke from the heart; and with a fervency of zeal, perhaps unequalled since the days of the Apostles, ornamented the celestial animations of the preacher, with the graceful and most enticing charms of rhetoric and oratory. From the pulpit he was unrivalled in the command of an ever crouded and admiring auditory; nor was he less entertaining and instructive in his private conversation and deportment; happy in a remarkable ease of address, willing to communicate, studious to edify, and formed to amuse; such, in more retired life, was the character whose departure we lament; and while a peculiar pleasantry enlivened and rendered his company agreeable, his conversation was ever marked with the greatest objects of his pursuit, virtue and religion! It were to be wished, that the good impressions of his ministry may be long retained; and that the rising generation, like their pious ancestors, may catch a spark of that ætherial flame which burnt with such lustre, in the sentiments and practice of this faithful servant of the most high GOD.

NEW-YORK, OCTOBER 4.

The people of Philadelphia have appointed another committee, and come to several resolutions to counteract those of the late committee. The people of Boston and South-Carolina, seem determined to continue the non-importation agreement.

On the 29th ult. his honour the Lieutenant-Governor issued a proclamation, whereby the General Assembly of this province is prorogued to the 6th day of November next.

PHILADELPHIA, OCTOBER 5.

On Saturday se'nnight sailed the ship London Packet, Capt. Cook, for London, by which vessel the merchants concerned in the British trade, have forwarded their orders for all sorts of goods from Great-Britain, except teas, and such other articles as are or may be subject to duties, for the purpose of raising an American revenue.

NEWPORT, *(Rhode-Island)* OCTOBER 9.

We are assured that one gentleman only, at Barnstaple, about 30 miles from Boston, who has, not long since, set up the woollen manufacture, receives, from the spinners he employs, 500 skeins of yarn one day with another, and that he has lately purchased 6,000 lb. of wool for his winter's stock.——By a moderate calculation, he cannot clear less than 3,000 dollars per year by his manufacture, which is the most profitable of any business now carried on in America, according to the stock improved in it; for the full knowledge and proof of which, we are obliged to our consummately politic LORDS and MASTERS (as they would be called) the Ministry of Great-Britain.

It is affirmed, by the best judges, that is by those who have made the experiment, that a piece of broad-cloth, of equal goodness with what would cost three dollars per yard in London, may be made in this colony, and even in this town, for one dollar and a half per yard, reckoning every expence.

Hence it is easy to conceive how the importation of woollens might be stopped, by a little industry; for there is certainly wool enough raised in this colony for cloathing the inhabitants, great part of which has formerly been carried into Massachusetts and Connecticut colonies:—But we are informed that of late those colonies have been almost stocked with sheep from this colony; so that they will want but little of our wool for the future; on which account it is thought numbers of merchants and farmers will soon enter largely into the woollen manufacture, by which the wool raised in this colony may be made to produce a clear profit of five or six times the first cost of the wool, after paying every charge that can happen; which can be demonstrated as clear as any proposition in Euclid.

OCTOBER 15.

Last week a small sloop having been driven out to sea in a hard gale, in her passage from New-York to the Jersies, and almost filled with water, was met with by a vessel belonging up our river, and brought into this harbour; the people all saved.

BOSTON, OCTOBER 15.

In consequence of the appointment of a committee of the House of Representatives, and the report of the same committee, we are informed, that the house came into a resolution on Tuesday last, that from absolute necessity only, and in order thoroughly to enquire into the state of the province, and radically to redress public grievances, many of which were now insupportable, they proceeded to business; which they had through the two preceeding sessions utterly declined, as being by no means expedient, while the general assembly was thus constrained to hold the sessions out of the Town-House in Boston. Previous to this determination, which involved in it the grand question, whether to continue the stand they had made or not, it was moved and ordered, that the matter be decided by Yeas and Nays; and the members being accordingly called upon seriatim to give their voices, it was carried by 59 to 29.

This very important question being thus decided, the house was moved for a committee to state the reasons which had induced them to come into the resolution, in like manner as they had done before, when they resolved it to be not expedient to proceed to public business; and a committee was accordingly appointed: These reasons will probably be published; and when that is done, the people without doors, by comparing the reasons which so strongly operated the two last sessions, with those which have now had so different an effect, will have an opportunity, as they undoubtedly have a right, of forming their own judgment of the matter.

At a meeting of the MERCHANTS of this town, last week, at the British coffee-house, it was unanimously voted to alter the non-importation agreement, and to open the importation of goods from Great-Britain, except teas, and such other articles as are, or may be subject to duties, for the purpose of raising a revenue in America.

We hear there are new appointments for surveyors of his Majesty's woods in North-America, viz.—His Excellency Governor Wentworth, for New-Hampshire, &c.—Hon. Brigadier Ruggles, for this province, and the northern parts of Nova-Scotia.—Capt. Gazel, of New-York, for the southern provinces.—And, Mr. Scammel, for the navy.—With salaries of 300l. sterling per annum, each.

We hear Francis Bernard, Esq; and John Bernard, Esq; are appointed joint naval officers for the port of Boston.

Sunday last arrived the Romney man of war, Commodore Hood, from Halifax.—The Boston man of war was to follow soon after.—Sir Thomas Adams, late commander of the Boston, died on board of the Romney.—Yesterday morning arrived here Commodore Gambier, in his Majesty's ship Salisbury.—On the arrival of Commodore Gambier, we hear Commodore Hood, in his Majesty's ship Romney, is to sail in a few days for England.

On the death of Sir Thomas Adams, the Boston is commanded by Capt. Parker, Capt. Below is Captain of the Romney, and Capt. Lindsey commands the Beaver.

Now in this harbour, his Majesty's ships Salisbury, Romney, Rose, Beaver, Viper, Senegal, and two armed scooners.

Extract of a letter from London, dated July 27.

"You may rely on it as a matter of fact, that it is voted in council, to send several regiments into Boston, to support such people there in importing and vending their goods, as will, in opposition to the sense of the province, pursue such a business; and that a number of ships are also ordered to invest the town."——*If the foregoing be true, it shews how important the non-importation agreement has been, even in the opinion of administration; how great a pity it is therefore, that the merchants did not continue it at least one season longer. It remains then that the* landholders *take the matter under their consideration, and withhold from buying a single article.—We can live without the baubles of Britain.—If there are no purchasers there cannot long be importers; we shall save our money, and save our country.*

NEW-YORK, OCTOBER 18.

Saturday Evening last was married, Sir William Draper, Knight of the Bath, to the amiable Miss Susanna De Lancey, daughter of the Hon. Oliver De Lancey, Esq; a young lady endowed with all the accomplishments necessary to render the marriage state happy.

Extract of a Letter from Boston.

"Our manufacturing scheme was yesterday reported, and met with so universal an approbation, that every word and sentiment was received without so much as a syllable's objection. It is so well calculated that it must succeed, for every man who can spare a shilling a year, may be interested in it. Scott has brought seven weavers and a wire-drawer, and I hear, one or more paper-makers. Mr. Hancock generously gave the manufacturers their passage free.

"We are menaced with ships of war and more troops, to be quartered upon us. What great things these terrific measures will produce, time will discover; but without pretence to inspiration, I guess, Britain's commerce will soonest and most permanently feel the injury. We still hear of sending for the heads of the faction, of laying our towns in ashes, of subduing our republican spirits, and such pueril bombast; but alas! such is our carnal security, that we laugh at the rod in the hands of tyrants, who cannot determine what part of a universally discontented people they dare begin to chastise with it!

"Let them take it for granted, that while ever there continues a general opinion of ill treatment on one hand, there will be an adequate relentment and dissatisfaction on the other. Harsh usage can only increase and confirm a slight aversion into an unbounded detestation. Men born and educated in the perfect sense of their rights and privileges, can never resign them quietly without a bargain of some kind. Nothing of this sort has ever been proposed to the poor Americans. They have become hewers of wood and drawers of water, barely to divert their kind mother—from a trial of their strength, in crushing them to pieces? Or, what is still more provoking, they and their affectionate brethren in Britain and Ireland, are required to bow the knee to a power abhorred and execrated by themselves and ancestors, as long as any trace of Saxon courage can be gleaned from the wastes of antiquity."——

Last Sunday Mr. Latham, surgeon to the King's (or 8th) regiment of foot, who is partner with Mr. Sutton, arrived here from Canada, in order to practise the Suttonian method of inoculation for the small-pox.

CHARLES-TOWN, NOVEMBER 8.

IN the Ship Charming Sally, Capt. Peter Rainier, which sailed last Tuesday for London, went Mr. *Philip Tidyman*, Jeweller, who was the Subject of a long Paragraph and an Advertisement of the General Committee in our last, carrying with him *that Case* of Goods the Contents whereof had been concealed from the said Committee; which, we are now informed, contained *Jewels &c.* to a very large Amount, not ordered by Mr. Tidyman, but consigned to him through the Persuasion of a third Person. The other Eight Packages imported by Mr. Tidyman, in Capt. Coombes's Vessel, are in the Hands of his Attorney, who is engaged upon his Honour, that no Part of the Contents shall be offered for Sale.

On Saturday last His Majesty's Sloop Martin, commanded by Capt. Thomas Heyward, sailed for her Station at Cape-Fear.

The same Day, Mr. Hatley (late Deputy Collector here) returned from Jamaica, in the Brigt. Tartar.

Monday last being the Anniversary of the glorious Revolution by the Landing of King William, and also of the Nation's signal Deliverance from a hellish Popish Plot, the same was observed here in the usual Manner, by a Display of Colours and a Discharge of Cannon from the Forts and Men of War.

A Number of public-spirited Gentlemen in this Town, have agreed to set on FOOT A SUBSCRIPTION immediately, to hire a Store and a proper Person to attend it, for receiving and selling all kinds of *Cloths, Linens, Cottons*, &c. MANUFACTURED IN THIS PROVINCE, for the Benefit of, and *without any Charge* to the Makers, in order to encourage the Back Settlers to make as many Articles as possible to *lessen* our Importations from abroad; an Object which the Landholders in general seem to have more at Heart since Defection of Part of the Merchants of New-York and some other Colonies, than before. And the Establishment of a proper MANUFACTORY-HOUSE it also talked of, as a Thing at no great Distance, and that will meet with great Encouragement.

On Tuesday Thomas Rogers, convicted at the last Sessions of Forgery, stood in the Pillory two Hours; Joseph Stone, and Joseph Trull, for Horse-stealing had their right Ears cut off, and received 6 Lashes each; and James Connaway, William Nowland, and John Connor, alias Campbell, three Thieves, were whipt at the four usual Corners, pursuant to Sentence passed upon them the 26th past.

The Sloop John's Relief, Benjamin Durant Master, from Bermuda, arrived at Ashepoo some Day last Week.

The 21st past arrived here Mr. Andrew Cathcart, formerly of this Town, but now of Jamaica, Merchant.

The 27th past Mr. Thomas Combs, of St. Bartholomew Parish, was married to the Widow of Mr. John Mayers.

Capt. John Wright, of the Scooner Sugar-Cane, who arrived here last Friday from the Bay of Honduras, in his Passage through the Gulph, on the 26th past saw a long low Ship, which had much the Appearance of a Frigate, and had lost her Mainmast and Part of her Foremast, ashore on the Martiers; and also a Brigantine, with yellow Sides and without a Head.

A Scooner from Savannah-River, last Saturday passed by a Snow ashore on an Island to the Southard of Tybee, supposed to be from Jamaica (perhaps the same Capt. Clark of the Diligence Packet-Boat had spoke with on the 9th past) as several Jamaica Hogsheads of Rum were floating about in the Sea; but the Wind blew too hard to take any of them up. The People were also on the Island, and the Snow's Sails to the Yards.

Yesterday was brought in here, by Mr. Brown, Patroon for Benjamin Huger, Esqrs. Scooner, the Scooner Betsey, where Mr. James Mercer, from Jamaica bound for Georgia, was Master with several Hogsheads of Rum and some Sugar on board, which he says he found ashore and deserted upon one of the Huntin Islands, whence he got her off.

SUPPLEMENT to the *South-Carolina* GAZETTE, No. 1831.

MONDAY, NOVEMBER 12, 1770.

By Captain Miles Lowley, who arrived here Yesterday, in Six Weeks from London, we have the following extraordinary and unexpected Advices.

LONDON, SEPTEMBER 7.

LORD Chatham has got acquainted with some transaction of the present Ministry's, which, in a proper place, he intends to make public; and which, from the loose hints that have been dropped concerning it, is supposed will be a matter of public astonishment.

The reason of the Duke of Grafton's sudden public quitral of office and employment last winter will be fully explained, we believe, in the course of the ensuing sessions; and also the reasons for Lord North's great assiduity to obtain a coalition of parties.

From Lord Chatham's travelling about, and paying visits at this time, we may infer that he has finally settled his plans for the ensuing winter; since soon after the breaking up of the last sessions of parliament, when he first closeted himself, he intimated that he should neither visit or receive company 'till he had so settled it as to be able to unburthen his mind of political subjects.

We are informed that some important advices have been received this week from America.

SEPTEMBER 8.

Yesterday Sir Edward Hawke, after assisting at a board of Admiralty, went to the court at St. James's, and when that broke up, had the honour of a conference with his Majesty.

Yesterday the Premier was sent for by express to Richmond, where he was in close conversation with a great personage for a considerable time, supposed on the settling of a permanent administration, which is now with great confidence asserted will soon be completed to the satisfaction of all parties.

We have it from undoubted authority, that a treaty of the last importance to the true balance of power in Europe, is now on the carpet between the courts of Petersburgh, Berlin, Copenhagen, Stockholm, and Great-Britain.

A noble Lord is expected from Ireland in a few days.—The *arcana* of his department are too deep, it seems, for the eyes of those agents he left behind him.

Mr. Grenville is talked of to preside again at the head of the Exchequer.

A *marine express*, it seems, has been dispatched after Lord Dunmore, with instructions to his Lordship to thank the New-York MERCHANTS publicly for their *dutiful* behaviour.

We are told by recent leters from America, that many attempts have been lately made by proper agents, to seduce the Philadelphians there from their resolutions of non-importation; but they all proved abortive.

A new plan for settling the American differences was a few days since submitted to consideration; and the prevailing opinion is, that it will be adopted without alteration, as it gave the great personage to whom it was presented, inexpressible satisfaction.

A board of trade and plantations is to be held on Tuesday next, at the plantation-office, Whitehall.

SEPTEMBER 10.

Saturday Lord North and Lord Weymouth, had the honour of a conference with his Majesty at Richmond.

INTELLIGENCE EXTRAORDINARY.

A Jew, one of the members of the *Bill of Rights*, decamped last week to Holland, and has left a reckoning of 100,000l. to pay behind.———

There is a great rot at present in the silk trade; no less than three great houses have given way within a few days, and many more are expected to follow, which has thrown the merchants, silkmen, throwsters and weavers all into an ague fit: What will be the end of all this, time only will discover. The Italian walk at Change time is filled with nothing but long pale faces like ghosts; six brokers, who have been instrumental in making all the bad debts, were publicly kicked off Change, and pronounced incapable to act for the future.——One of them, a Frenchman, was even exceedingly troublesome, upon which he had the misfortune to have his head broke, to the high diversion of the spectators.

SEPTEMBER 11.

Lord Chatham, notwithstanding all reports to the contrary, we are assured, has not visited a great personage at Richmond this season.

Sir Edward Hawke had a conference with Lord Chatham a few days since at Hayes, in consequence, it is said, of his Lordship having a short time since, submitted some important intelligence, respecting naval affairs, to the consideration of the Board of Admiralty.

Extract of a letter from a gentleman at Lisbon, to his friend in London.

"*Mr. Dennis Connell, British merchant, has been imprisoned here lately, in an ignominous manner, and by an incompetent judge, not only in defiance of our rights, but contrary to all law and equity; a circumstance which has greatly alarmed every British subject in this place, and been the subject of many consultations. Mr. Connell has behaved with becoming dignity through the whole affair. Redress has been demanded, but no satisfaction hitherto obtained, though 15 days have elapsed since his imprisonment. If the judge, who is one of the lowest class, is not severely chastised, it is hoped the issue will be properly resented by the English government. This affair, I doubt not, will make a great noise in England.*"

SEPTEMBER 13.

Affairs in the city are in great confusion; nothing on certain walks in the 'Change but long faces, and the alley full of bulls and lame ducks.

Tuesday the Lords Gower and Northington, arrived in town from their country seats, and were afterwards present at a grand council held at St. James's.

Two noble Lords, who arrived in town on Tuesday, were sent for, we are told, by express message.

A great personage expressed his desire, that if it was necessary any change in administration should be made, he wished it would take place immediately, lest it should afterwards interrupt the business of a great assembly.—And accordingly Lord Northington arrived in town, *once more*, on Tuesday.

It has been resolved on to put all the British forts on the American coasts on a respectable footing; the very existence of our slave trade, sugar, tobacco, rice, &c. depending entirely on their support.

It is actually said, that a detachment from the troops in Halifax, are ordered to be removed into the province of New-York, to protect the *importing merchants* against the threats of the enraged populace.

Orders for great quantities of various kinds of goods are received at Sheffield, Birmingham, Woolverhampton, &c. &c. for the New-York exportation.

A correspondent wishes our patriotic men would give an eye to what is doing in France; where the resolution of the people makes a *despotic* monarch almost tremble.

The French King has ordered several regiments to be stationed in the different provinces of that kingdom which seem to be most discontented.—This is the never-failing remedy that terminates all grievances in France.

SEPTEMBER 14.

On Friday morning last, the Comptroller of the General Post-Office, with one of the clerks, were sent express, in a chaise and four, to Plymouth, after the last-dispatched New-York bag, with orders, if they did not overtake it there, immediately to get a vessel and follow the packet for that purpose:—Supposed to be the consequence of some change of sentiments in the ministry, respecting the New-York importers.

Lords Weymouth, Rochford, March, and Sir Edward Hawke, as well as Earls Gower and Northington, were present at the council held on Wednesday, at St. James's.

The household of the Prince of Wales was once proposed to be fixed, the advisers of which were Lord B. and Mr. S. but the scheme was soon put an end to by the Princess Amelia, who sent her opinion on that subject to a great personage.

The THANE is now said to be in Germany, incog.

SEPTEMBER 15.

Those gentlemen who have been chosen into Parliament since the last sessions, have already received, it is said, the minister's invitation to attend at the Cockpit, on the Speech.

Thursday arrived and remain in the Downs, a Russian squadron, consisting of three ships of war, and sixteen transports, commanded by Admiral Arf.

We are told, that a letter was received at St. James's, on Wednesday night last, from the North, containing the request of a Chief-Judge for leave to resign.

We are assured, that the only obstacle to a chief-judge's resignation is, the non-appointment of a Lord-Chancellor; so that his continuing in office, or retiring, this winter, entirely depends upon that event.

A certain North-American Governor was offered, some time ago, to return to his government upon what terms he pleased; but he absolutely rejected it on any terms.

It is reported that a patent has actually passed the seal, for appointing Thomas Hutchinson, Esq; Lieutenant Governor of Massachusetts-Bay, to be Governor of that province.

The odds are in the city 96 to 55, that Great-Britain is engaged in a war before Christmas day next.

Letters from Ireland inform us, that Lord Hillsborough has offered the Lord-Lieutenant there some *pills* which his Excellency cannot *gulp*; and add, that upon the whole, the conscience of the latter is much more tender than the generality of his predecessors in office could ever boast of.

SEPTEMBER 17.

Such is the perplexed situation of public affairs, that a few days ago his Majesty thought proper to send for the Earl of Northington; and on Thursday last had a conference with that Nobleman, at Richmond.

It would be difficult, perhaps, to ascertain the cause of the prodigious fluctuation in the stocks, which, since Thursday last, are fallen five or six per cent. Bank stock, which is now to low as 142, was ten per cent. higher a week ago.

We find that the power of establishing the household of the young Prince is to remain in the hands of the Premier, to be made use of on some important and dubious point in the House.

SEPTEMBER 18.

Saturday the Earl of Rochford and Lord Viscount Weymouth, had a conference with his Majesty at Richmond.

Earl Hillsborough's unexpected arrival at Chester, on his way to London, caused more than ordinary speculation. He had intended staying 'till the meeting of the British parliament.

We have it from respectable authority, that Lord Hillsborough's return from Ireland was commanded, some days ago, by *express*.

It is the same at Chatham as at Portsmouth:—Nothing but fitting out ships—engaging caulkers, and riggers—and working double tides.

SEPTEMBER 19.

Boards of Admiraly have been held every day this week for the dispatch of business.

The cession of Falkland island, which is now no longer a secret, it is said, will cause a very serious parliamentary enquiry.

We have undoubted authority to assure the public, that the most numerous meeting is expected at York on the 25th inst. the refusal of the high sheriff to give the county an opportunity of expressing their sentiments, having made the worthy and independent freeholders more determined to speak their wrongs.

Sir George Saville, Bart. and Alexander Wedderburn, Esq; are, on the 25th instant, at the Yorkshire meeting, to give a detail to the freeholders of all the proceedings of the last sessions.

Yesterday his grace the duke of St. Alban's arrived at his house in St. James's street from Flanders, after having been absent from England 15 years.

SEPTEMBER 20.

An extraordinary cabinet was held yesterday, at which the archbishop and all the great officers of state attended. The two English ambassadors to Spain and Portugal were in waiting.

All the foreign ministers were at the court at St. James's yesterday, except one.

It is asserted that Lord Chatham has not (as has been currently reported) for some months past been once requested to take part in the national business.

SEPTEMBER 21.

Orders are issued for the raising of 17,000 seamen with all possible expedition.

An Irish Nobleman offered on Wednesday a wager of fifty guineas, that war would be declared against Spain within a fortnight.

Wednesday afternoon the Spanish Ambassador had a long conference with his Majesty at Richmond.

The regiment ordered to Minorca, in order to relieve the troops already there, and which were to have sailed in a few days, were on Wednesday countermanded; and it is thought they will be sent to Jamaica.

Lord Hillsborough is arrived at his house in Hanover-square, from Ireland.

SEPTEMBER 22.

It is allowed on all hands, that Lord Chatham, when Minister, had the most early intelligence of the measures and movements of foreign courts, of any man since Oliver Cromwell. It is now certain, that his Lordship's intelligence in his private capacity is equal to that in his public. The Earl's assertion last winter in the house, that an hostile blow against Great-Britain was at that moment struck in a remote quarter of the world, was treated by the ministerial hirelings, in and out of doors, as the rash and silly assertion of a madman; there remains, however, now but little doubt of our being no longer in possession of Falkland island; and to the honour of this great man, that this was the blow which his Lordship then adverted to.

The moment a war is proclaimed, Lord North has declared he will resign.

James Burnett, Esq; is appointed naval officer and storekeeper of Kingston and Port-Royal, in Jamaica, in the room of William Stuthart, Esq.

Extract of a letter from Gosport, dated Sept. 19.

"Commodore M'Kenzie is come down, and will sail in a few days in the Seaford, to take the command of the fleet at Jamaica, in the room of Commodore Forrest, deceased."

SEPTEMBER 24.

At the court at St. James's, the 19th day of September, 1770.

PRESENT,

The King's most Excellent MAJESTY in Council.

HIS Majesty in council was this day pleased to order, that the Parliament, which stands prorogued to Tuesday the twenty-fifth of this instant September, should be further prorogued to Tuesday the thirteenth day of November next.

Great-Britain will shortly have 70 ships of the line in actual service, including the fleets now getting ready.

The whole of the fleet now fitting out is said to be for three different purposes: One part to act in the Channel as guard ships, and to be ready, also, to send on any foreign expedition when necessary; Another part to join the fleet we now have in the Mediterranean, and to act there as a fleet of observation; And the third part to be added to the fleet on the West-India station, to be prepared to defend our Islands and settlements, and to annoy the French and Spaniards in that part, if a war should break out between us and them.

SEPTEMBER 25.

From the fullest authority we insert the following paragraph:

The Favourite sloop is just arrived at the Mother-Bank, from Falkland island, and brings advice, that five Spanish frigates, with land forces and artillery, arrived there the 24th of June last, and dispossessed his Majesty's forces of our settlements on that island.

It is the general opinion that the Dorsetshire and Edgar men of war, which sailed some time since, are gone to Falkland islands.—The last accounts from those islands (brought by the Tamar sloop, Capt. Hunt, and the Florida store-ship, which arrived the end of May) were, that whilst they lay there, at Port Egmont, two Spanish frigates, of 30 guns each, having a regiment on board, arrived there, and pretended to be surprised at finding the English, who they insisted should evacuate it. This Captain Hunt refused; upon which the Spanish commanding officer landed, and took possession in the name of his Catholic Majesty, and allowed the English officer six months to evacuate the island. Capt. Hunt left the Favourite sloop of war and a store-ship at Port Egmont.

The commissioners of his Majesty's navy have given directions, that, unless the surgeons in the service apply to the office immediately, they will be struck off the list.

At a meeting of the captains of ships in the Leeward Island trade, at New-Lloyd's Coffee-house, on Saturday last, in order to settle the seamens wages, it was unanimously agreed to give 30*s.* per month, with a protection.

Messengers were yesterday sent to some of the members of the privy-council, who are out of town, to repair hither immediately.

Dispatches are preparing to be sent off with the greatest expedition, to the governors and consuls at all the English settlements, in the West-Indies, and to the continent.

A board of trade and Plantations is appointed to be held at the plantation office on Thursday next.

SEPTEMBER 26.

The following is an authentic copy of a letter sent on Monday night from the Admiralty, to the master of Lloyd's Coffee-house in Lombard-street:

"The Favourite sloop of war being arrived off the Mother-Bank from Falkland island, brings an account, that a Spanish man of war and five frigates, with artillery and land forces on board, had dispossessed his Majesty of the settlement of Fort Egmont. I am commanded by the Lords Commissioners of the Admiralty to give you this information, that the merchants, and others who are any ways interested therein, may be fully acquainted therewith."

Signed ———.

Admiralty-Office, Sept. 24, 1770.

The following is said to be an exact account of the ships sent by the Spaniards from Buenos-Ayres to take possession of Falkland islands, viz. One frigate of 30 guns, 190 seamen, and 100 soldiers. Three frigates of 28 guns, 803 seamen, and 340 soldiers. One frigate of 20 guns, 110 seamen, and 84 soldiers.

Yesterday several merchants waited on the Lords of the Admiralty, praying their Lordships attention to the homeward bound ships from North-America in general, and Newfoundland in particular, as to the security of the men; and received for answer, that the merchants might depend on due attention being paid to their request.

Yesterday a grand board was held at the Treasury, for the first time for some months past, at which Lord North presided: All the other Lords of the Treasury were present.

We are assured that six ships of the line are ordered to be immediately completed for service, before any other of the present armament.

It may be depended on, that the above six ships are to proceed, as soon as ever they are fitted out, to the river Tagus, to demand satisfaction of the court of Portugal for the imprisonment and ill usage of Mr. Connel, the English merchant at Lisbon.

We are assured that it is determined, if the court of Portugal does not give immediate and ample satisfaction for the insult offered to Great-Britain, in their illegal and oppressive usage of our English traders, war will be directly declared against her.

The stocks fell on Monday three, and yesterday five per cent.

Yesterday morning early an extraordinary packet sailed with instructions to the governor of Jamaica.

The conformity of the inhabitants of Massachusetts-Bay to the example set them by their neighbours of New-York, is every day expected to be brought about.

By advice in twenty-six days from Boston, we learn, that several of the judges there had offered to resign, but the Lieutenant-Governor had refused to accept of their resignations, and ordered all of them to attend on the day on which Capt. Preston's trial was to come on.

Orders are sent to Ireland for several transports to be taken up at Cork and Dublin for government service.

Notwithstanding the present extraordinary equipment of a marine force, and the very hot press that is now made for hands to man the fleet; yet many people of known sagacity and polit-

al knowledge aſſert, that it is not done with a view to a war.

They write from Leith, that a general preſs for ſeamen had juſt commenced there, and in all the capital ſea-ports of Scotland.

They write from Briſtol, that the preſs-gang, immediately upon its appearance there, was joined by a great number of volunteers and was ſucceſsful otherwiſe.

The preſs for ſeamen began in Ireland the very day it did in London.

SEPTEMBER 27.

The intelligence brought by the Favourite ſloop is conſidered only as a confirmation of the commencement of hoſtilities by the Spaniards, even before the Tamar ſloop, which arrived in May, left that place. The accounts then publiſhed, agree in ſubſtance with the letter ſent on Monday night from the Admiralty-office to Lloyd's coffee-houſe, with reſpect to the number of ſhips and forces ſent by the Spaniards, who had landed before the Tamar ſloop come away. Our force there at time was too ſmall to make any reſiſtance, being only two ſloops of ſixteen guns, and it is looked upon as the beſt method they could purſue, for one to bring home the intelligence the ſooneſt poſſible, and for the other to watch their motions as long as the Spaniards would ſuffer them to continue, which was till the beginning of June, when they took poſſeſſion of Port Egmont.

The Spaniards have taken care to be armed at all points to receive us. A new governor of Cadiz has put that place, and the adjoining coaſt, into a proper ſtate of defence; and General O'Reily, who arrived at Madrid in July or Auguſt from the Havannah, aſſured his Catholic Majeſty, that every place in that part of the world had been viſited by him, and was left in thorough repair.

It is reported that no ambaſſador will be ſent from the Britiſh court to that of Madrid, and that this is the true reaſon why one was not immediately appointed on the reſignation of George Pitt, Eſq;

A gentleman of character and fortune is ſent off expreſs to Madrid. The miniſtry are determined not to act raſhly in the preſent criſis, but to proceed through every ſtep of this important quarrel deliberately and ſlowly; they are determined to *ſleep* to argument, before they *riſe* to blows. If the meſſenger meets with an honourable reception at the court of Madrid, and receives candid anſwers to his interrogatories concerning the affair of Falkland iſlands, it will ſeem to merit a candid diſcuſſion on both ſides; but if he is put off with ſhuffling evaſive anſwers (as is thought will be the caſe) the expreſs is to return immediately,—and a Britiſh fleet will eaſily aſſert the Britiſh rights.

Friday two expreſſes, on the back of one another, paſſed through Bromley, on their way to Hayes.

It is reported that Lord North waited upon the Earl of Chatham, a few days ſince, at his Lordſhip's ſeat at Hayes, but upon what buſineſs is a profound ſecret.

The Earl of Chatham it is ſaid, is in the higheſt credit with a great perſonage: His declaration, when he pledged his honour in the houſe of Lords, that the Spaniards had already ſtruck a blow againſt us in ſome part of the world, being now verified.

It is now generally conjectured, that Lord Chatham's intelligence came by means of the King of Pruſſia; a friendly correſpondence having commenced between that illuſtrious Sovereign and the patriotic Earl when in power, which has ever ſince continued.

After the notice given to the merchants that they may take care to ſecure their effects, ſome people have been ſanguine enough to lay wagers, that war will be declared within the courſe of the month. Thoſe, however, who are more to be depended on, ſay, that an event of ſo much importance will hardly take place before the meeting of parliament, and the miniſtry will venture upon no ſtep of that kind without the concurrent ſenſe of the legiſlature. In the mean time, however, the moſt vigorous preparations will be made, and all things got in readineſs to act with ſpirit, if a war ſhould be found unavoidable.

All the letters received by our merchants from Madrid, brought by the laſt packet, mention a report, which prevailed in that city, of an intended rupture with England; and that they every hour expect a declaration of war to be made there.

A committee of merchants of this metropolis is already appointed to conduct the American buſineſs during the enſuing ſeſſion of parliament.

Two betts are actually laid (one by Lord S.) that before the end of ten days the Spaniſh ambaſſador will terminate all diſputes—by ſetting off from London for the *catholic* court at midnight.

The prorogation of the parliament to ſo late a period (before which the half of Europe may be in arms) can be accounted for only by the abſurdity of other meaſures of the cabinet. After the *wiſe* men of the Weſt have tranſacted meaſures that are deſtructive and irretrievable, (for at this critical time every meaſure is deciſive) it will be time enough for the auguſt body to meet to approve them, pay the miniſtry ſome compliments on their wiſdom, and vote ſupplies to ſupport them; and fill up the remaining vacuum with paſſing turnpike-bills and dog-acts.

It is with the greateſt confidence reported, that ſeveral impeachments will certainly be made ſhortly, after the meeting of a great aſſembly.

We hear the miniſtry have given orders, that part of the fleets now fitting out at the dock yards, be permitted to conduct the Newfoundland merchant ſhips ſafe home.

Monday night 20 per cent. was given to inſure ſhips from the Leeward iſlands, but to return 15 in caſe of no war before their arrival.

A correct liſt of the ſhips put in commiſſion.

Not leſs than 2000 men have been entered at the Portſmouth rendezvous, by Lieutenant Ayſcough, and returned to the admiralty, from the 18th of Auguſt to the 22d of September, being Saturday laſt; and near 600 ſince the proclamation for bounty-money, at the ſaid rendezvous, where they ſtill keep entering as faſt as three perſons can write their names; and are immediately ſent on board the Yarmouth at the Nore, by boats.

The militia of the ſeveral counties will be ſhortly ordered out, that many neceſſary regulations may be made previous to the declaration of war, which it is now imagined will almoſt immediately take place.

Extract of a letter from Liſbon, dated September 6, to a Merchant in London.

"——By the great preparations making here it ſeems we are on the eve of a war; however the Portugueze have taken care to fill their granaries with corn ſufficient for two or three years, which they bought of the Americans, (for they are too idle to cultivate their own lands) and moſt of what they now buy is ſhipped off for their good friends the French, who it is ſaid, are in great want, but they make them pay an exorbitant price for it."

By the KING.

A PROCLAMATION.

GEORGE R.

WHEREAS our parliament ſtands prorogued to Tueſday the thirteenth day of November next; We, with the advice of the privy council, do hereby publiſh and declare our royal will and pleaſure, that the ſaid parliament ſhall, on the ſaid thirteenth day of November next, be held and ſit for the diſpatch of divers weighty and important affairs. And the lords ſpiritual and temporal, and the knights, citizens, and burgeſſes, and the commiſſioners for ſhires and burghs of the Houſe of Commons, are hereby required to give their attendance accordingly, at Weſtminſter, on the ſaid thirteenth day of November next.

Given at our Court at St. James's the twenty-ſixth day of September, one thouſand ſeven hundred and ſeventy, in the tenth year of our reign.

God ſave the KING.

Tueſday laſt a letter was ſent by the miniſtry to the Lord-Mayor, to inform him, that a grand council would be held in a few days, concerning the preſent critical ſituation of affairs with reſpect to Spain; and to aſſure his Lordſhip, that he ſhould be immediately acquainted with the determination thereupon.

A ſpirited memorial is diſpatched to the court of Spain, demanding their immediate evacuation of the Falkland iſlands.

The courier ſent to Madrid had orders to wait only nine hours for an anſwer from the Spaniſh court, and then to ſet out on his return, even though he ſhould not be furniſhed with any in that time.

It is ſaid that orders have been given to the Purſuivants of arms, at the Herald's office, not for any of them to be out of town, but to be within an hour's warning.

We hear, that the Spaniſh miniſter at this court has declared, that the taking of Falkland iſland was done by the Governor of Buenos Ayres, without the order or knowledge of his court.

The commander of the Favourite ſloop of war from Falkland iſlands, has, we hear, been introduced to his Majeſty, and honoured with a private conference.

It is ſaid, that the papers of the Favourite ſloop of war were examined before the board of admiralty held yeſterday, and referred for further inſpection.

Mr. Lyttelton, it is ſaid, is to return immediately to Liſbon in his former character.

It is ſaid that the power given to the Britiſh ambaſſador to Liſbon is *deciſive*——a full and immediate redreſs of grievances —or war.

The report of 'Change Alley on Wedneſday was, that the courier had returned from Madrid with an aſſurance, that the Spaniſh court greatly condemned the conduct of their officers in the South ſeas, reſpecting their treatment of the Engliſh at Falkland iſland, together with a promiſe, not only of a reſtitution of that place, but likewiſe of every expence this nation has been put to on the account. This report had the deſired effect, and raiſed the ſtocks at leaſt three per cent. Yeſterday, however, they found out that his return cannot be expected for ſome days to come; nevertheleſs, things ſeem rather better than on Wedneſday.

It is ſurmiſed, that one ground of the preſent preparations for war is, ſome ſecret intelligence received by the miniſtry, that the Endeavour man of war, which was ſent into the South ſea with the aſtronomers, to make obſervations, and afterwards to go into a new track to make diſcoveries, has been ſunk, with all her people, by order of a jealous court, who has committed other hoſtilites againſt us in the Southern hemiſphere.

Mr. Banks and the famous Dr. Solander were on board the above veſſel, and are feared to have ſhared the common fate with the reſt of the ſhip's company.

SEPTEMBER 29.

The Spaniſh ambaſſador no longer ago than Tueſday morning, made an abſolute diſavowal to the miniſtry, of his ever having received any intimation, from his court of their deſigns againſt Falkland iſlands, or any account of their having carried thoſe deſigns into execution. He had indeed, he owned, heard through other channels, of a kind of ſquabble there between the ſubjects of the two crowns, but not as a meaſure authorized by either power.

It was yeſterday the opinion of the political connoiſſeurs in the environs of St. James's, that the late prorogation of the parliament muſt be reſcinded, and that there will be an actual neceſſity for both houſes to meet for the diſpatch of buſineſs in a fortnight or three weeks.

We are aſſured, by very reſpectable authority, that it is beyond a doubt, that Lord Chatham ſo ſettled his means of information, that his intelligence of the ſecret movements and deſigns of the various powers of Europe, is frequently conveyed to him before the ambaſſadors here of ſuch reſpective courts are acquainted with them themſelves. It is affirmed, that his Lordſhip knew of the determination and orders of the Spaniſh cabinet, relative to the diſpoſſeſſing us of Falkland iſlands, within fourteen days from the time that ſuch reſolution was taken.

It is the talk that many conſiderable perſonages, who not long ſince made a jeſt of the people's grievances and apprehenſions, are now actually trembling with *apprehenſions* of ſome legal *grievances* falling ſoon on themſelves.

It is reported, that three regiments of foot will ſoon be embarked for the Weſt-Indies, to augment and ſtrengthen the different gariſons on the Britiſh iſlands.

A council is ſummoned to meet at Richmond to-morrow; at which the Lords North, Chatham, and Rochford, are ordered to attend.

CHARLES-TOWN, NOVEMBER 12.

BY Captain Lowley, *we have alſo Accounts of the Succeſs of the* Ruſſian *Arms againſt the* Turks; *a War now of two Years Continuance, but of which we have not hitherto taken any Notice in this Paper, becauſe it muſt, in that Cauſe, have been filled with a Variety of very contradictory Intelligence, to the Excluſion of what more immediately concerned ourſelves. The preſent Accounts are, and appear well authenticated, that the* Ruſſian *Armies have penetrated into the* Turkiſh *Empire as far as* Bender *(remarkable for being the Retreat of* CHARLES XII. *of* Sweden, *when he was beat at* Pultowa, *ſituated on the River* Nieſter, *about* 120 *Miles from its Mouth on the* Black Sea) *and that they have actually opened their Trenches before that important Place. On the other Hand, their Fleets, after entering the* Mediterranean, *with the Aſſiſtance of the* Greeks *who revolted, have not only poſſeſſed themſelves of the greateſt Part of the* Morea, *and ſome Iſlands in the* Archipelago; *but likewiſe gained a ſignal Victory over the* Turkiſh *Fleet, near the Iſland of* Scio *on the Coaſt of* Anatolia; *brief Particulars whereof are, that the* Turkiſh *Fleet, conſiſting of* 15 *capital Ships,* 2 *Caravels,* 3 *Zebeques, and* 8 *half Gallies, commanded by the Captain* Pacha Giaffer Bey, *and* Haſſan Bey, *were attacked by the* Ruſſian *Squadron, in three Diviſions, conſiſting of* 9 *capital Ships,* 2 *Frigates,* 2 *Packet-Boats,* 2 *other Veſſels, and* 5 *Fire-Ships, commanded by the Admirals* Spiritoff, Orloff, *and* Elphinſton, *who fought deſperately the whole Day of the* 6th *of* July, *when the* Turks *thought proper to retire under the Cannon of* Scio, *where the* Ruſſian *Fire-Ships that Night deſtroyed all the Fleet, except the Ship of* Giaffer Bey, *and ſome Feluccas; after which Victory, Admiral* Elphinſtone *proceeded to cruize off the Iſland of* Tenedos, *near the* Dardanelles, *to prevent Proviſions being carried to* Conſtantinople.——*The Deſign of the* Ruſſians *appears to be, to make themſelves Maſters of* Conſtantinople, *and they will probably ſucceed in it, as they have a powerful Fleet in the* Black Sea, *ready to ſecond the Operations of the other, and of the Army.*

The GENERAL COMMITTEE

Give this Notice to the PUBLIC, That

Philip Tidyman,

JEWELLER, in BROAD-STREET,

A Subſcriber to the GENERAL RESOLUTIONS,

HATH been detected importing, in a ſecret and clandeſtine Manner, and in direct Violation of his ſolemn Engagement, ſeveral Caſes of Plate, Jewels, and other Goods, to a conſiderable Value, by the *Union*, Capt. *Coombes*, from LONDON: And having been called before the Committee, on Saturday the 27th Inſtant, to anſwer for the ſame, inſtead of making an ample and ingenuous Confeſſion of his Crime, he obſtinately denied the Fact, until confronted by Capt. *Coombes*'s Mate, who declared he had delivered *three* Caſes to Mr. *Tidyman* himſelf, more than were mentioned in the Ship's Manifeſt, or reported by the ſaid *Tidyman* to the Committee. The ſaid *Tidyman*, confronted with ſuch Proof, promiſed to deliver up all his Invoices to the Committee; yet ſtill endeavoured to conceal a conſiderable Part thereof; moſt of which has ſince diſcovered, by ſuch of his original Invoices as he at different Times produced. The Committee however, are perſuaded that the ſaid *Tidyman* has concealed *one* of the Caſes, which probably, may be the moſt valuable: And as, in the whole of this Affair, he has been guilty of the moſt flagrant Falſehood and Deceit, even ſo far as to produce a fictitious Letter, pretending, that certain Articles contained in the *ſix* Caſes reported in the Manifeſt, were ſent him as a Preſent, from a Kinſman in England; which ſince appear, by his own Invoice, to contain Merchandize, ſhipped by his Order, and for his Account.—The Committee therefore, at an extra Meeting, on Monday the 29th Inſtant, required the Attendance of Mr. *Tidyman*, in order to adviſe him to diſcover and reſhip the Whole of the Goods, which he had ſo treacherouſly imported:—But he not attending then, or at a ſubſequent Meeting, and abſolutely refuſing to appear, the Committee think it their Duty to publiſh the ſaid *PHILIP TIDYMAN*, as an audacious and incorrigible Violator of the General Reſolutions, deſerving the Contempt of every good Man; and it is expected that no Subſcriber will, hereafter, have any Dealings with him, unleſs he ſhall make full Atonement for his late baſe and perfidious Behaviour.
